BIODIESEL REFUND FORM INSTRUCTIONS

This form is to be completed by the licensed supplier who is purchasing and blending biodiesel with undyed, clear distillate diesel fuel to create a "Biodiesel mixture". Arkansas Code Ann. § 15-4-2802 defines "biodiesel" as "a diesel substitute produced from nonpetroleum renewable resources that meets the registration requirements for fuels and fuel additives established under the Energy Policy Act of 1992, 42 U.S.C. §§ 13211-13219, as in effect on January 1, 2005". "Biodiesel mixture" means a mixture of biodiesel fuel and undyed, clear distillate special fuel that is suitable for use in motor vehicles on Arkansas highways". Arkansas Code Ann. § 15-4-2803 provides for a refund equal to fifty cents (\$0.50) for each gallon of biodiesel fuel used by the supplier to produce biodiesel mixtures. To the extent the gallons of biodiesel fuel used in the mixture exceed 2% of the total biodiesel mixture, the refund is limited to two percent of the total gallons of biodiesel mixture.

Instructions for the Refund Computation

Line 1. Enter the total gallons of clear biodiesel mixture that was sold as a **B2** blend.

Line 2. Enter the total gallons of clear biodiesel mixture that was sold as a **B5** blend.

Line 3. Enter the total gallons of clear biodiesel mixture that was sold as a **B10** blend.

Line 4. Enter the total gallons of clear biodiesel mixture that was sold as a **B20** blend.

Line 5. Enter the total gallons of clear biodiesel mixture that was sold as **other** blends.
Please list the blend ratio(s) in the space provided.

Line 6. **ADD LINES 1 THROUGH 5 AND ENTER THE TOTAL.** This is the total gallons of all biodiesel mixtures sold.

Line 7. **MULTIPLY GALLONS ON LINE 6 x 2% AND ENTER THIS AMOUNT.** This is the total gallons of biodiesel eligible for the refund.

Line 8. **REFUND AMOUNT (MULTIPLY LINE 7 x \$0.50).**

The amounts reflected on the refund claim form must be compiled from records that are maintained by the licensed supplier. These records should include:

1. Total gallons of biodiesel received by the supplier each calendar quarter to be recorded by the date, number of gallons purchased and from whom the biodiesel was purchased.
2. Total gallons of biodiesel blended with dyed diesel during each calendar quarter.
3. Total gallons of "biodiesel mixture" sold during each calendar quarter by blend type.

All records must be maintained for a period of six years.
